Water in Welkom

Students enjoy clean water with freshwater tanks.

Feeding the Nations

Daily meals are provided for Skeerport learners.

Water, the Gift of Life

Nega Nega community in Zambia gets a new borehole.

Achieving B-BBEE Level 1 in South Africa

As part of our commitment to transformation, development and inclusion, Kal Tire has achieved Level 1 Broad-Based Black Economic Empowerment (B-BBEE) certification for three consecutive years.

From feeding school children and providing learnerships for youth to supporting emerging local businesses and choosing B-BBEE aligned small suppliers, we're building stronger relationships with communities and we're contributing to sustainable growth across South Africa.

"Maintaining B-BBEE Level 1 has become a part of our culture," says John Martin, vice president Southern Africa, Kal Tire's Mining Tire Group. "We're always looking at what we can do better and what else we can do. We treat B-BBEE not as a project that ended, but a living process."
